

# Jupiter

## STEAM VACUUM & DETERGENT

- » 7.5 bar steam pressure
- » Detergent injection
- » Continuous steam
- » HEPA vacuum filtration
- » Robust stainless steel construction

### The best featured light industrial steam cleaner available

The Jupiter steam cleaner is a compact but powerful steam and vacuum cleaner. It boasts a 7.5 Bar steam pressure, giving high quality dry saturated steam and capable of maintaining a stable high working pressure.

This Jupiter has detergent injection for hard to remove dirt and stains and an integrated vacuum with HEPA H13 filtration for peace of mind. The Jupiter also incorporates larger water and detergent tank capacities allowing extended cleaning times and ensures a professional level clean every time.

The Jupiter uses high temperature dry saturated steam to deep clean below the surface and effectively lift built up dirt and grime while sanitizing the surface.

The Jupiter is designed to clean a huge variety of everyday surfaces including floors, walls, windows, curtains, upholstery, mattresses, kitchens and bathrooms.

### Ideal for a range of commercial uses

The Jupiter is the perfect cleaning machine for a wide range of commercial uses including hotels, motels, cafes, bakeries, restaurants, nursing homes, hospitals, contract cleaners and many more.

### Built to last

This is a high quality stainless steel steam and vacuum cleaner made in Italy and built to last - the Jupiter is a powerful machine ready to tackle the toughest cleaning jobs in your industry.

### A tool for every cleaning job

The Jupiter is supplied with a comprehensive set of attachments to cover a huge range of cleaning applications. It comes complete with steam only and steam and vacuum tool kits including hoses, floor brushes, window squeegee and a detail nozzles and a range of brushes.
