9,000, 36,000 and 72,000 Watt units also available.

### Supervap GVC-9000

#### Continuous Dry Steam

Introducing the Supervap GVC-9000 Three Phase Industrial Steam Cleaner – the ultimate solution for all your industrial cleaning needs. Designed specifically for heavy-duty applications in manufacturing, production, warehouses, and other industrial settings.

With optional vacuum kit, this powerful system will revolutionize your cleaning process, tackling tough industrial cleaning challenges with ease. This mobile cleaning and sanitizing solution is capable of delivering wet or dry vapor steam on demand in both static and continuous applications. And the best part? It does all of this while being environmentally friendly!

Generating high quality dry saturated steam at over 180°C, the Supervap kills over 99.999% of bacteria including mould and effortlessly tackles stubborn grease, dirt, biofilm, and more!

Employing of dry steam cleaning in your facility, not only ensures exceptional cleaning results but also saves you valuable labour, resources and reduces costly waste. Powerful enough for production lines, yet gentle on machinery and electronics.
