Why Dry Steam?

Dry steam cleaning is a cost effective and time saving cleaning method. Everyone can benefit from the improved results provided by the use of dry steam, from residential to industrial customers, ensuring that sanitation and visual cleanliness is always at its best for your customers and staff.

A Tool For Every Cleaning Job

Steam Australia's quality dry steam machines have a vast array of attachments to cover endless cleaning applications. Choose from a preselected accessory package or customize your accessories to suit your needs. Make tricky and labour intensive cleaning jobs easier in your business, with our powerful dry steam sanitising machines. For example, kitchens, bathrooms, floors and walls, interior and exterior glass, and high touch points such as door handles and railings.

Built To Last

Steam Australia's quality commercial steam cleaners are manufactured and designed in Italy and are built to last.

Our accessories are constructed with a makeup of 50% Fibreglass Reinforced Polymer (FRP), categorically top in their field. FRP is often used in aerospace, marine & construction industries, so you can guarantee these accessories have high durability.

Ecological Results

Utilizing dry steam presents significant cost savings and environmental benefits. Including:

Environment and sustainability

- Uses significantly less water and minimal to no chemicals;
- Reduces chemical waste;
- Creates a clean, dry and sanitized environment; and
- Quickly kills germs, bacteria, dust mites, bed bugs and other parasites.

Economical

- Reduces chemical usage by up to 100%;
- Reduces water usage up to 90%;
- Reduces the cost of water and waste disposal;
- Enables faster cleaning times, allowing staff to clean more areas; and
- Improves facility cleanliness.

Results Without Compromise

Achieve your environmental targets without compromising on efficiency or results!

Suitable for every situation

Using a maximum of 5 litres of water per hour, dry steam will deep clean far more effectively than traditional methods. Steam penetrates deep into the surface, easily removing dirt, grease and grime from the otherwise unreachable areas.

You will appreciate the time, effort and money saving benefits of using dry steam to clean. There is little need to use chemical or detergents as the steam deep cleans and sanitises with just water. Surfaces are deep cleaned and are instantly ready to be re-used as there is no chemical residues. Stop back breaking scrubbing and allow our dry steam cleaners to make your day to day life easy!

Residential and Accommodation

- Clean mattresses, upholstery, curtains, walls and floors
- Kills dust mites, bed bugs, allergens and bacteria
- Clean windows and mirrors
- Clean window and door tracks
- Removes stains from bed linen, carpets and carpeting
- Deep clean tiles and grout
- Chemical free cleaning around children and pets

- Clean sticky benchtops and chairs
- Improve customers first impressions
- Effective infection control
- Children's Play Areas
- Gaming Chairs
- Easily remove years of chemical buildups

Floors

Play Mats

Choosing a suitable machine for you

Steam Only

Steam only machines are exactly that – steam only. They have one function and that is to provide high quality dry steam to complete the task easily. Because they have one main function the benefits include:

- More compact and light weight than steam and vacuum machines
- Typically can supply more quality steam for longer periods of time
- Lower investment cost than their steam and vacuum counterparts
- “Plug & Play” functionality – easy and intuitive to use for new and experienced users

Steam and Vacuum

Steam and vacuum machines allow the use of a wet vacuum in conjunction with the steam machine in one compact unit. Steam and vacuum units provide the following benefits:

- Leave surfaces dry – instantly
- Provide a deeper clean to soft surfaces and upholstery
- Features can be used individually or combined with the press of a button
- Accessories for any task – users are never left wishing they had a certain feature to provide impeccable results
- Our commercial steam and vacuum models also come with an added detergent injection function for the more demanding jobs

Recommended machines for your industry

Testimonials

"I have used our machine in restaurants, chewing gum removal, toilets, washrooms, move out cleans, ovens, showers, window, tracks and this is only some of the things steam can be used for" - **Dick Cleary - Allworth Cleaning**

"It's the only tool we can't work without as it removes grease, grime tar, diesel, gum and dirt from any surface, with the minimum effort." - **Richard and Karen – A Contract Cleaning Company**

"I have found that Steam Australia units to be far superior to any others we have used. The machines have many applications both front of house and back of house, kitchens, bathrooms, escalators and lifts. They are also a most effective way of reducing chewing gum on pavements and carpet. " - **Michael Gilzean - Public Area Manager Star City**

"Highly recommend Steam Australia. The team were very pleasant to deal with, very helpful & knowledgeable. Would definitely purchase from them again! Thank u so much Steam Australia for your help with our new business!" - **Susan Nguyen**

"We couldn't be without it! The machine and the service team are first class" - **Doris Lloyd - Lounge Manager 1st and Business Class Emirates Airline International Airport Brisbane**

"The machines capability and flexibility in cleaning the many different applications we have is outstanding and the service you provided from the sale to the after service is commendable." - **Ken Howell - Facilities Manager Tweed Heads Bowls Club**

"Our bakery never looked cleaner and we are happy with the hygienic standards that can be achieved especially in the Food safety and Hygiene standards now being demanded in all food outlets. We believe these steam machines should be the norm when it comes to equipment setup in all bakeries" - **Dolores Johnston - Franchisee Brumby's Jindalee**

"The machine has been fantastic! We're using it across the board in the hospital and it's been perfect for addressing the new Health Department's regulations. We really are lifting the standard across the board with hygiene and we're already planning to purchase another machine." - **Jose Oyarce - Cleaning Contractor for a Hospital**

About Steam Australia

Steam Australia are the experts in steam cleaning. We've been bringing Europe's leading names in steam cleaners to the Australian market for over ten years and have built our reputation as the best place to buy a quality steam cleaner in Australia.

We have a huge range of commercial steam cleaning machines available. Whether you are looking for a small steam cleaner or a three phase industrial grade steam cleaning machine we have it covered.

As the sole Australian supplier for some of Europe's leading names in steam cleaning you can be sure you are getting a quality product when you buy from us.
