

# SV8W

## STEAM VACUUM & WATER INJECTION

- » 8 bar steam pressure
- » Continuous steam
- » Water injection
- » Chemical Free
- » 3 level steam
- » 3 level vacuum

### The newest, eco-friendly light commercial steam cleaner available

The SV8W steam cleaner is the best featured, chemical free, light commercial steam and vacuum cleaner on the market. It boasts a huge 8 Bar of steam pressure with the ability to inject water through the steam line, ensuring powerful extraction and a professional level clean every time.

Similar to its predecessor, the SV8D, this steam cleaner has all the power and features of the largest commercial steam and vacuum machines available. Its compact size, features and superior performance make the SV8W the most popular machine of choice for applications targeting materials and upholstery.

The SV8W uses high temperature dry saturated steam to deep clean below the surface and effectively lift built up dirt and grime without the use of chemicals and detergents, while sanitizing the surface.

The SV8W is designed to clean a huge variety of everyday surfaces including floors, walls, windows, curtains, upholstery, mattresses, kitchens, bathrooms and more.

### Ideal for a range of commercial uses

The SV8W is the perfect cleaning machine for a wide range of industries in particular the auto-detailing and hospitality industries. The water injection feature is targeted at cleaning upholstery, carpet and soft furnishings without the use of chemicals.

The SV8W is recommended for a range of commercial uses including hotels, motels, cafes, restaurants, nursing homes, hospitals, contract cleaners, auto detailers and many more.

### Built to last

This is a high quality commercial steam cleaner made in Italy and built to last. It has a robust and compact design with superior cleaning performance - powerful steam and vacuum ready to take on the toughest cleaning jobs in your business.

### A tool for every cleaning job

The SV8W is supplied with a range of attachments to cover a huge variety of cleaning applications. It comes complete with a floor brush, window squeegee and detail nozzle with a range of brushes. There are also a variety of optional accessories available including a trolley, upholstery tool, steam mop kit and other application specific attachments.
