Why Dry Steam?

Dry steam cleaning is a cost effective and time saving cleaning method for deep cleaning and removing 99.999% of bacteria and pathogens*. All departments can benefit from the improved results provided by the use of dry steam, from house-keeping to catering, ensuring that infection control and visual cleanliness is always at its best.

A Tool For Every Cleaning Job

Steam Australia's quality dry steam machines have a vast array of attachments to cover endless cleaning applications. Choose from a preselected Hospital & Health accessory package or customise your accessories to suit your needs. Make tricky and labour intensive cleaning jobs easier in your ward, with our powerful dry steam sanitising machines. For example, non slip floors, walls and curtains, upholstered seats, mattresses, mobility equipment and more.

Built To Last

Steam Australia's quality commercial steam cleaners are manufactured and designed in Italy and are built to last. Our accessories are constructed with a makeup of 50% Fibreglass Reinforced Polymer (FRP), categorically top in their field. FRP is often used in aerospace, marine & construction industries, so you can guarantee these accessories have high durability.

Ecological Results

Utilising dry steam presents significant cost savings and environmental benefits. Including:

Environment and sustainability

- Uses significantly less water and minimal to no chemicals;
- Reduces chemical waste;
- Creates a clean, dry and sanitized environment; and
- Quickly kills germs, bacteria, dust mites, bed bugs and other parasites.

Economical

- Reduces chemical usage by up to 100%;
- Reduces water usage up to 90%;
- Reduces the cost of water and waste disposal;
- Enables faster cleaning times, allowing staff to clean more areas; and
- Improves facility cleanliness.

Results Without Compromise

Achieve your environmental targets without compromising on efficiency or results while keeping patients and staff safe.

*Expert Opinion Dr. Jochen Steinmann—C/O Dr. Brill, Partner GmbH, Institut für Hygiene und Mikrobiologie, Bremen, 18-06-2020.

Suitable for every situation

Using a maximum of 5 litres of water per hour, dry steam will deep clean far more effectively than traditional methods. Steam penetrates deep into the surface, easily removing dirt, grease and grime from the otherwise unreachable areas.

As the steam is hitting the surface at well over 100°C, it not only leaves the surfaces clean, it sanitises and deodorises without the use of chemicals. Dry steam also leaves minimal water residue behind, allowing you to either wipe away with microfibre or switch on the vacuum function leaving the surface clean, dry and ready for use.

Case Studies and White Papers

Studies from Hospital, Health & Aged Care are showing the improvement dry steam cleaning is having on overall facility cleanliness and management. These reports include;

- Improved cleaning outcomes
- Significant cost savings
- Improved cleaning times
- Improved staff morale
- Environment and sustainability goals
- Reduced WHS risks and costs

Choosing a suitable machine for you

Steam Only

Steam only machines are exactly that – steam only. They have one function and that is to provide high quality dry steam to complete the task easily. Because they have one main function the benefits include:

- More compact and light weight than steam and vacuum machines
- Typically can supply more quality steam for longer periods of time
- Lower investment cost than their steam and vacuum counterparts
- “Plug & Play” functionality – easy and intuitive to use for new and experienced users

Steam and Vacuum

Steam and vacuum machines allow the use of a wet vacuum in conjunction with the steam machine in one compact unit. Steam and vacuum units provide the following benefits:

- Leave surfaces dry – instantly
- Provide a deeper clean to soft surfaces and upholstery
- Features can be used individually or combined with the press of a button
- Accessories for any task – users are never left wishing they had a certain feature to provide impeccable results
- Our commercial steam and vacuum models also come with an added detergent injection function for the more demanding jobs

Recommended machines for your industry

SW9

STEAM & HOT WATER

- » 9 bar steam pressure
- » Hot Water Injection
- » Continuous steam
- » Compact design
- » Adjustable steam

SV8D

STEAM, VACUUM & DETERGENT

- » 8 bar steam pressure
- » Detergent Injection
- » Continuous steam
- » 3 levels of steam
- » 3 levels of vacuum

- » 15L HEPA in-line vacuum kit

OPTIONAL PROFESSIONAL UPGRADE

- » Lightweight steam & detergent hose
- » In-line detergent injection
- » 9 piece professional detail kit

Testimonials

The SV8D steam cleaner is used regularly for infections cleans, chairs, furniture, blinds, bathrooms, spot cleaning and many different areas throughout Norwest Private Hospital. After 6 months of constant use this machine has now become an essential part of our cleaning and hygiene program with fantastic results. Our male and female staff find the machine lightweight and very user friendly compared with other cleaning equipment. We absolutely love the fact that the machine can provide cleaning and sanitising all in one process. With the vacuum the end result is instantly clean and dry - exactly what we need. -

Graham Bridcutt - Norwest Private Hospital

Our new SV8d is doing a great job! We're using it to clean the bathrooms, beds, spot cleaning stains and the floors throughout our whole facility including both tiles and carpet. It's fantastic for getting into tight places, sanitising surfaces and is very efficient. -

Georgina Sultana - The Congregation of the Dominican Sisters of Malta

The machine has been fantastic! We're using it across the board in the hospital and it's been perfect for addressing the new Health Department's regulations. We really are lifting the standard across the board with hygiene and we're already planning to purchase another machine. -

Jose Oyarce - Cleaning Contractor for a Hospital

The SV8D was quick to set up, easy to use and a very tidy unit compared to other cleaning machines. We use it on a daily basis to clean the tiles, patient rooms after discharge and the pool area. -

Simon Weeks - Wolper Jewish Hospital

The SV8D has been excellent. We're using it to clean tiles, spot cleaning on carpet, removing mold and sanitizing the beds. It's really quick and easy to use and dries quickly which is perfect in the busy hospital environment. -

Tim Holloway - Mosman Private Hospital

Just a quick note to let you know that our machines are going great, we are constantly amazed by what they can do. We had our managers here from head office last week who we did a demo for and they were very impressed. We would now like to purchase a third machine. -

Tammy Degney - Forster Private Hospital

About Steam Australia

Steam Australia are the experts in steam cleaning. We've been bringing Europe's leading names in steam cleaners to the Australian market for over ten years and have built our reputation as the best place to buy a quality steam cleaner in Australia.

We have a huge range of commercial steam cleaning machines available. Whether you are looking for a small steam cleaner or a three phase industrial grade steam cleaning machine we have it covered.

As the sole Australian supplier for some of Europe's leading names in steam cleaning you can be sure you are getting a quality product when you buy from us.
