

PUREBELT™ PORTABLE CONVEYOR BELT CLEANING SYSTEM

Feb 23

PUREBELT™ — Reduce Labor Costs

Designed for cleaning flat conveyor belts, the Goodway® PureBelt™ portable brushless system is a fully portable cleaning system for use across multiple production lines. This system is available in various sizes and is designed to deliver clean-in-place (CIP) cleaning of flat conveyor belts in dry clean environments like bakeries, snack plants, confectionery plants, and sensitive industrial settings. The PureBelt™ portable systems reduce production downtime and labour costs by automating flat conveyor belt cleaning.

A PureBelt™ portable brushless conveyor belt system continuously cleans conveyor belts using dry steam - using 90% less water than traditional cleaning methods. Vacuum extraction quickly removes soils like sugars, fats, oils, allergens, mould and more, leaving belts dry and clean.

PureBelt™ Portable Conveyor Cleaning System:

Reduce cleaning time, remove allergens and bacteria, and extend production time. Unique conveyor belt cleaning system cleans flat, solid belts in place automatically with dry steam and vacuum extraction, leaving belts clean, dry, sanitised and allergen free...**Call for Price**

USE FOR

- Bakery & Snack Conveyors
- Candy & Confectionery Conveyors
- Dry & Powdered Ingredient Processing Conveyors
- Pharmaceutical Production Conveyors
- Allergen Cleaning on Conveyors

FEATURES

- Clean-in-place solution
- Reduces labor costs
- Removes soils, pathogens, mould and allergens from belt surfaces
- Sanitary design maintains cleanliness
- Adjustable width and height for a perfect fit
- Integrated vacuum port for debris extraction
