

SV8W

STEAM VACUUM & WATER INJECTION

- » 8 bar steam pressure
- » Continuous steam
- » Water injection
- » Chemical Free
- » 3 level steam
- » 3 level vacuum

The newest, eco-friendly light commercial steam cleaner available

The SV8W steam cleaner is the best featured, chemical free, light commercial steam and vacuum cleaner on the market. It boasts a huge 8 Bar of steam pressure with the ability to inject water through the steam line, ensuring powerful extraction and a professional level clean every time.

This steam cleaner has all the power and features of the largest commercial steam and vacuum machines available. Its compact size, features and superior performance make the SV8W the most popular machine of choice for applications targeting soft surfaces, material and upholstery.

The SV8W uses high temperature dry saturated steam produced at over 170 degrees in the boiler. With a moisture content of only 5%, this dry saturated steam kills >99.999% of bacteria & viral agents.* This allows to deep clean below the surface and effectively lift built up dirt and grime without the use of chemicals and detergents, while sanitising the surface.

The SV8W is designed to clean a huge variety of everyday surfaces including floors, walls, windows, curtains, upholstery, bathroom, car seats, carpets and more.

Ideal for a range of commercial uses

The SV8W is the recommended machine for wide range of industries including mobile auto-detailing, hospitality, and where chemical free cleaning is of priority. The water injection feature is ideal for cleaning upholstery, carpet and soft furnishing as the increased volume of water, is able to rinse the fibres more affectively resulting in a better, sanitised clean.

Built to last

The SV8W is a high quality commercial steam and vacuum cleaner and is built to last. With quality Italian construction and commercial technology, the SV8W has robust and compact design with superior cleaning performance - powerful steam and vacuum ready to take on the toughest cleaning jobs in your business.

Our available accessories are constructed with 50% Fibreglass Reinforced Polymer (FRP). FRP is often used in aerospace, marine & construction industries, ensuring high durability.

A tool for every cleaning job

The SV8W is supplied with a range of attachments to cover a huge variety of cleaning applications. It comes complete with a floor brush, window squeegee and detail nozzle with a range of brushes. There is also a comprehensive range of optional accessories also available, including trolley, upholstery tool and more.

Product Accessories

Product Specifications

Boiler steam temperature	171°C	Steam pressure	8 Bar
Boiler Heating time	5 - 6 minutes	Steam output maximum	82 g/min
Boiler material	Stainless Steel - AISI 304	Steam levels (control on handle)	3
Boiler capacity	2 L	Steam production and water fill	Continuous
Water tank capacity	2.2 L	Water injection volume (maximum)	364g/min
Steam & vacuum hose	2.5m standard (option 5m)	Vacuum motor suction (maximum)	19 kPa
Power required	230V-50 Hz	Vacuum levels (control on handle)	3
Power cable length	7m	Vacuum filter	Water filtration
Total power consumption	2,200 W	Vacuum waste tank capacity	1.8 L
Dimension (L x W x H)	53 x 40 x 40 cm	Dry weight	14.5 Kg
