

DOMESTIC Saphira C8

Quality Dry Steam
Easier, Safer, Better

Professional results at your fingertips.

- » 8 Bar steam pressure
- » Continuous flow
- » Adjustable steam output
- » Commercial technology
- » Compact design
- » Water efficient
- » Chemical free

Italian made, sophisticated, powerful. The steam cleaner for your home.

The Saphira C8 steam cleaner is one of the most powerful and compact domestic machines on the market. It boasts a huge 8-Bar of steam pressure with stainless steel boiler and ensures a safe and easy, professional level clean, every time.

The Saphira has the power and features of larger commercial steam cleaners in its' compact size. Continuous steam capability allows for water reservoir refilling at any time during operation, without downtime to cool and depressurise. The Saphira features 3-levels of adjustable steam, and is ready to take on the toughest cleaning jobs in your home without interruption.

The Saphira's robust yet compact design gives superior cleaning performance, delivering powerful high temperature dry saturated steam—produced at over 170 degrees. With a moisture content of only 5%, the steam kills >99.999% of bacteria & viral agents.* This allows to deep clean below the surface and effectively lift built up dirt and grime, whilst sanitising surfaces.

Ideal for a range of domestic uses

The Saphira is the perfect machine for a range of domestic applications for everyday surfaces such as floors, kitchens, bathrooms, windows, tiles & grout, mattresses, sliding door tracks, weeds & more.

Compact & Stylish Design

Italian made and designed, the Saphira C8 is elegant and sophisticated boasting cutting edge design, featuring a transparent blue casing with LED luminescence. Weighing just under 8kgs, the Saphira is lightweight, portable and efficient. The four spinner wheels on the base, provide the machine an even weight distribution and high maneuverability, making it very easy to use.

Built to last

The Saphira is not your average throw away appliance. With quality Italian construction, and commercial technology, this domestic machine is built to last. Our available accessories are constructed with a makeup of 50% Fibreglass Reinforced Polymer (FRP), categorically top in their field. FRP is often used in aerospace, marine and construction industries, so you can guarantee these accessories have a high durability.

A tool for every cleaning job

The Saphira C8 is supplied with an 18-piece multi-purpose accessory kit to cover a range of applications. It comes complete with floor brush, triangle brush, window squeegee's, detail nozzle and selection of brush attachments. Range of optional accessories available.
