Why Dry Steam?

Dry steam cleaning is a cost effective and time saving cleaning method for deep cleaning, sanitising and removing >99.999% of bacteria and pathogens*. All departments can benefit from the improved results provided by the use of dry steam, from classrooms to playgrounds, ensuring that infection control and visual cleanliness is always at its best.

A Tool For Every Cleaning Job

Steam Australia's quality dry steam machines have a vast array of attachments to cover endless cleaning applications. Choose from a preselected accessory package or customise your accessories to suit your needs. Make tricky and labour intensive cleaning jobs easier in your facility, Clean; carpet, walls and curtains, bathrooms, kitchen, seats, tables, bedding, equipment, common areas, and more.

Built To Last

Steam Australia's quality commercial steam cleaners are manufactured and designed in Italy and are built to last. Our accessories are constructed with a makeup of 50% Fibreglass Reinforced Polymer (FRP), categorically top in their field. FRP is often used in aerospace, marine & construction industries, so you can guarantee these accessories have high durability.

Ecological Results

Utilising dry steam presents significant cost savings and environmental benefits. Including:

Environment and sustainability

- Uses significantly less water and minimal to no chemicals;
- Reduces chemical waste;
- Creates a clean, dry and sanitised environment; and
- Quickly kills germs, bacteria, dust mites, bed bugs and other parasites.

Economical

- Reduces chemical usage by up to 100%;
- Reduces water usage up to 90%;
- Reduces the cost of water and waste disposal;
- Enables faster cleaning times, allowing staff to clean more areas; and
- Improves facility cleanliness.

Results Without Compromise

Achieve your environmental targets without compromising on efficiency or results!

*Expert Opinion Dr. Jochen Steinmann—C/O Dr. Brill, Partner GmbH, Institut für Hygiene und Mikrobiologie, Bremen, 18-06-2020.

Suitable for every situation

Using a maximum of 5 litres of water per hour, dry steam will deep clean far more effectively than traditional methods. Steam penetrates deep into the surface, easily removing dirt, grease and grime from the otherwise unreachable areas.

You will appreciate the time, effort and money saving benefits of using dry steam to clean. There is little need to use chemical or detergents as the steam deep cleans and sanitises with just water. Surfaces are deep cleaned and are instantly ready to be re-used as there is no chemical residues. Stop back breaking scrubbing and allow our dry steam cleaners to make your day to day life easy!

Childcare and Early Education

- Clean mattresses, upholstery, curtains, walls and floors
- Kills dust mites, allergens, bacteria and infectious diseases

Choosing a suitable machine for you

Steam Only

Steam only machines are exactly that – steam only. They have one function and that is to provide high quality dry steam to complete the task easily. Because they have one main function the benefits include:

- More compact and light weight than steam and vacuum machines
- Typically can supply more quality steam for longer periods of time
- Lower investment cost than their steam and vacuum counterparts
- “Plug & Play” functionality – easy and intuitive to use for new and experienced users

Steam and Vacuum

Steam and vacuum machines allow the use of a wet vacuum in conjunction with the steam machine in one compact unit. Steam and vacuum units provide the following benefits:

- Leave surfaces dry – instantly
- Provide a deeper clean to soft surfaces and upholstery
- Features can be used individually or combined with the press of a button
- Accessories for any task – users are never left wishing they had a certain feature to provide impeccable results
- Our commercial steam and vacuum models also come with an added detergent injection function for the more demanding jobs

Recommended machines for your industry

SW9

STEAM & HOT WATER

- » 9 bar steam pressure
- » Hot Water Injection
- » Continuous steam
- » Compact design
- » Adjustable steam

SV8D

STEAM, VACUUM & DETERGENT

- » 8 bar steam pressure
- » Detergent Injection
- » Continuous steam
- » 3 levels of steam
- » 3 levels of vacuum
