

DOMESTIC

DRY STEAM CLEANING

EASIER. SAFER. BETTER.

Saphira C8

*A Tool For Any
Application*

Don't settle for nearly clean **GET REALLY CLEAN**

Dry steam is an easy and efficient method of cleaning improving cleaning outcomes both visually and microbially. The superior performance of high temperature dry steam drastically reduces contact time required to sanitise hard and soft surfaces, in turn, reducing household clean times. Dry steam is a hospital approved method of cleaning widely used across commercial industries.

Make the switch to chemical free cleaning to remove harsh chemicals from your day to day life. By switching to dry steam cleaning, you too, can make tricky and labour intensive jobs easier, without the excess need of toxic household chemicals. The Saphira C8 is the future of home cleaning; Lightweight, portable, efficient & effective.

What Is Dry Steam?

Dry steam is simply vapour from water. Dry pressurised steam with a boiler temperature above 170°C, used in conjunction with quality microfibre, is the perfect cleaning combination for optimal infection prevention.

Steam Australia machines produce Dry Steam above 170°C with a moisture content of only 5%. High temperature dry steam breaks the bond between dirt and surface, killing $\geq 99.999\%$ of bacteria, by inactivating and damaging cells. This process facilitates the elimination of bacteria, virus' and allergens; such as dust mites, bed bugs, mould spores, E.coli, Influenza, Coronavirus and other enveloped viruses.

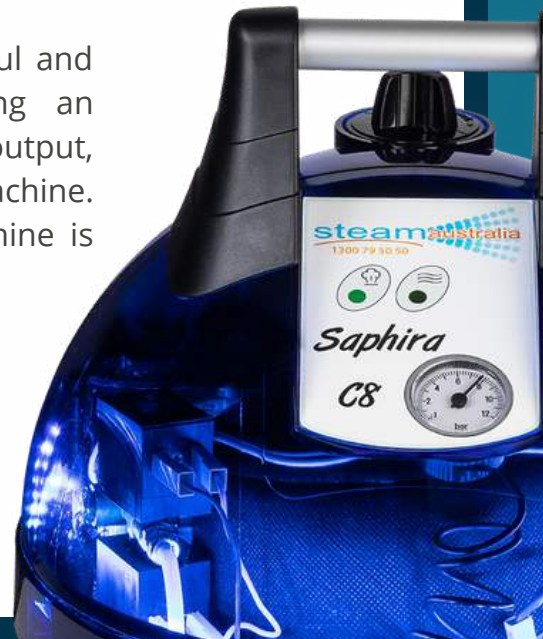

Italian Made, Sophisticated & Powerful.

THE BEST STEAM CLEANER FOR YOUR HOME.

The Saphira C8 steam cleaner is one of the most powerful and compact domestic machines on the market. Boasting an impressive 8-bar of steam pressure and 82g/min of steam output, the Saphira C8 is a high performance domestic machine. Producing continuous dry steam at over 170°C this machine is designed with superior performance in mind.

Italian made and designed, the Saphira C8 is elegant and sophisticated showcasing cutting edge design, featuring a transparent blue casing with LED luminescence. This trendy designer appliance is one to show off!

It is supplied with an 18-piece multi-purpose accessory kit to cover a range of applications. With a wide array of optional steam only tools, we can tailor the perfect package for your home cleaning needs.

**Ensure a professional level clean,
every time.**

Results Without Compromise

Are you sick of cleaning with toxic chemicals affecting your family's health?

Sanitising with Dry Steam produces better results than everyday sprays and wipes, eliminating exposure to harsh chemicals. Chemical residues build up over time, attracting dirt and grime, making your surfaces dirtier, faster. Dry steam cleaning cuts through these residues and drastically reduces the overall contact time required to kill bacteria, without adhering chemical dwell times.

Dry Steam cleaning is hygienic and helps us reduce our water and chemical consumption making us more environmentally responsible. Dry steam inactivates and damages cells to eliminate microorganisms. Start cleaning with better methodologies to ensure your home is clean and safe for your family and furry friends.

WHAT OUR CUSTOMERS HAD TO SAY

"The Saphira steam cleaner it has *absolutely* met our expectation delivering a superior amount steam and cleaning efficiency. Can I just say that dealing with Kat and Colin was an enjoyable experience where professionalism and knowledge was at the forefront "

Ray Wilson

"We bought our Saphira C8, five months ago, when our previous steam-cleaner (a cheapie) died after a short time. We couldn't be happier that we did. We bought the Deluxe option, which includes the steam iron, and the iron does the job magnificently. We are using the Saphira to steam-clean floors, bathroom tiles and our BBQ (amongst other things). The amount of steam it generates is amazing. OK, the Saphira is not cheap but, as they say, you get what you pay for. In our case, the money was certainly well spent (and it will last us a lot longer than our last steam-cleaner). Highly recommended (and the staff at Steam Australia is wonderful and extremely helpful)."

Peter Woods

"I've had the Saphira C8 for about 18 months now that I use in our Queenslander home. It's been such a timesaver for me for deep cleans, especially all the white window and door architraves and skirting boards which all have so many small grooves - previously had to clean all this detail with a toothbrush! It really pumps out the steam for the toughest jobs and the small brush accessories allow to easily get into the grooves. Very satisfying! I also want to commend Steam Australia and their customer service. When I first enquired, Colin phoned me to carefully explain how to use the machine and answer my many questions. Just this week I emailed a question on descaling - and once again, Colin jumped on the phone to personally explain what to do and how to tell if I needed to do this with our water. Highly recommend both the company and the Saphira C8!"

Kerrie Lawrence

WHY CHOOSE US

ABOUT US

Steam Australia are the experts in dry steam cleaning. We've been bringing Europe's leading names of steam cleaners to the Australian market for over fifteen years and have built our reputation as the best place to buy a quality steam cleaner in Australia.

We have a huge range of commercial steam cleaning machines available. As the sole Australian supplier for some of Europe's leading names in steam cleaning, you can be sure you are getting a quality product when you buy from Steam Australia.

NO SUBSTITUTE FOR QUALITY

There is nothing more frustrating than when a machine you rely on breaks down unexpectedly. We firmly believe that no one does dry steam better than Italy. Our manufacturers have been developing quality steam machines since 1994. Our machines are hand built to our Australian specifications so that we can provide you the best user experience available today. Lean manufacturing methods have allowed us to rapidly adapt to the markets needs no matter how big or small.

Fitted with commercial quality components the Steam Australia range are built to last. Backed by our 2 year warranty, Steam Australia has confidence in our products to last and perform.

ONGOING SUPPORT

We know that you can't afford to have any unexpected down time. Steam Australia have spent more than 15 years building up our support network throughout Australia and New Zealand to ensure that your machine can always be maintained by the industries best.
